## REMARKS

The figures of births and deaths shown in this statement for week ending the 6th July, 1957 relate to 173 towns with an estimated population of 21,945 thousands. Information about Andhra Pradesh, Assam, Delhi, Madhya Pradesh, Orissa, Pondicherry, Rajasthan and West Bengal could not be included. The total number of towns is 319 and their population is 42,930 thousands. Thus 54% of the total number of towns representing 58% of the total

population is covered in this statement. The number of births and deaths recorded in these towns were 13,769 and 7,651 representing birth and death rates of 28.7 and 16.0 per thousand of population respectively.

No towns recorded a high death rate of 30 or over per thousand of population. The following table gives the position by States :—
